

Supporting your child with Scotland

Objectives	Can your child answer these questions?	Date
Count up to 20 objects	Lay out 20 items (sweets, marbles, teddy bears) Can you count the objects?	
Order numbers to 20	Can you put these numbers in the correct order? (Using cards/paper with numbers 0-20 written on them spread out in mixed order)	
Estimate a quantity of up to 20 objects	Without counting, how many objects do you think there are? Why did you make that guess? Let's check if you were right. (Using sets of objects in various quantities 1-20.)	
Count on from any number to 20	Let's start from (insert number 1-19) and count on to 20. What number comes next? (A number line, snakes and ladders board or hundred square is useful to support this)	
Count back from 20 to 0	Can you count down from 20 to 0 and BLAST OFF?! (Using a number line is useful to support this)
